2016 Top Dentist

Dr. Lovato is honored to be voted one of Colorado Springs top dentist! This is the 5th consecutive year he received this accolade from the *Colorado Springs Style* magazine. Dr. Lovato was also voted one of the top dentists in Colorado by *5280 Magazine* for the 7th time. Both of these awards are tremendous honors. Dr. Lovato and staff will continue to work hard and strive to provide the best care possible for each of our patients for yet another year.

Prevention Tips from Chelsa

You may have read a recent study claiming flossing is unnecessary. I would like to remind you how wrong that is! After flossing do you ever see residue or food particles left on the floss? Your answer is probably yes. This is because your toothbrush bristles can't reach between your teeth or under the gum line like floss can. Flossing stimulates your gums, making them stronger so they don't bleed as easily. Without flossing, bacteria can build up to cause inflammation and bleeding which can eventually lead to periodontal disease and bone loss. This build up is common in the areas only floss can "clean". Bone loss can be a serious issue as bone is what holds your teeth in place.

Flossing can be easily forgotten with our busy lifestyles. I suggest you leave floss out where you will see it daily or near where you watch TV. If anyone makes fun of your floss out in the open, just remind them you plan on having all your teeth to eat steak for the rest of your life! 😊

Halloween Candy Buy Back

Dr. Lovato and staff are partnering with Operation Gratitude to keep kids healthy and support our troops at the same time! Pounds and pounds of Halloween candy can wreak havoc on children's dental health. So why not donate that Halloween candy to our office? We will send those treats to

Operation Gratitude to be distributed to our soldiers serving overseas. To really sweeten the deal Dr. Lovato will buy the candy back from the donors at \$1 per pound! We are preventing cavities and bringing smiles to our service men and women's face. We know what you were thinking... what about our soldier's teeth? Don't worry! We will be donating toothbrushes, toothpaste, and floss to the soldiers along with the candy 😊. Check out our website, call the office, or stop by for more details on how you can donate. We will be taking candy donations until Nov. 11th.

Get to Know Us!

Elizabeth

Where are you from? - Born and raised in northeastern Ohio. I met my husband in North Carolina while we were both in the military. He was stationed here in 2005. He has since separated from the military but we decided to make Colorado our forever home!

What would you do if you won the lottery? - Sorry Dr. Lovato- I would have to take early retirement and travel the world. I would travel throughout Europe, see the sights and eat as much delicious food as I can. When the money runs out- I may have to come and beg for my job

back!

What is your favorite movie? - This is too hard to decide- I love all movie genres! If I had to narrow it down- there are two that I can watch over and over and not get sick of- Top Gun and Forrest Gump.

Who is your favorite sports team and why? - Let's just put it this way... When I was born my first "blanket" was a Terrible Towel... my daughters first "blanket" was also a Terrible Towel. Although I am from Ohio, I always have been and will always be a Pittsburgh Steelers fan! I knew my husband was a keeper when he converted to a Steelers fan and let me set up our basement as a "woman cave" with all my memorabilia!

What is the best part of working in the dental field? - The best part is the relationships I get to build with the patients. Getting to know them on a personal level and making lasting bonds is very special to me.

Chelsa

Where are you from? - Born in Michigan and raised in Ohio. Then moved to Indiana about 7 years prior to settling in Colorado.

What was the last craft project you did? - I had an empty wall in the living room that drove me nuts. I pieced together different sized wood planks after "distressing" them (beating them to death with a hammer) and added shelves for succulents. And voila... wall art!

If you could live anywhere, where would it be? - My husband and I love southwest Michigan. It's closer to friends, family, and WATER!

What is your favorite meal? - Pizza. Homemade or restaurant. Who doesn't love meat and cheese?

What is the best part of working in the dental field? - When I can teach a patient how to perform a prevention technique, they practice it, and then next time they come back we see the positive results. I love to see the pride in their faces and that in turn, makes me proud!

Dr. Lovato

Where are you from? - Born in Washington D.C. and raised in Colorado Springs from 1 year old

What is your favorite band? - The Eagles with Styx as a close second

What is your favorite restaurant? - Coquette's

If you could live anywhere, where would it be? - Colorado Springs for most of the year and Scottsdale in the winter

What is the best part of working in the dental field? - Knowing that I am helping to save and restore people's teeth to provide functionality and

ultimately improving their quality of life. I also love seeing the satisfaction on patient's faces after giving them their smiles back through cosmetic dentistry.

Heather

Where are you from? - Born in Missouri. My dad was in the military so I lived in many places. I fell in love with the mountains when we were stationed here in 2000 and have been here ever since!

Who is your favorite band? - I like all types of music. Lately I have been listening to Lindsey Stirling, an amazing violinist.

What is your favorite restaurant? - A little place on the east side of town called Arharn Thai. It's delicious and so fresh!

What are your hobbies? - I like to hike and read. I love to explore our Pikes Peak area and curl up with a good book afterwards.

What is the best part of working in the dental field? - The best part is getting to know our patients and making them feel comfortable. I enjoy helping Dr. Lovato provide superior care to each patient we treat.
